W. L. B. Accuses John L. Lewis Of Defying U.S. Government

Lewis Refuses To Appear

Hearing

STRIKE MENACE
GROWING HOURLY

By JACOB VINCENT

WASHINGTON, May 17.—The War Labor Board in Washington accused UMW President John L. Lewis of defying the United States government and giving "aid and comfort to the enemy" today in a statement obviously intended to avert a new nationwide coal strike tomorrow midnight.

The statement was drafted at a meeting between the WLB and the nation's coal operators after Lewis again had defied the board by refusing to attend. The declaration merely denounced Lewis' stand but took no direct action to ease the threat of another general walkout in the coal fields.

However, the denunciation of Lewis was so strongly worded that the board was evidently meant to challenge Lewis' patriotism if the UMW allows another strike to occur tomorrow. It also was noted that Lewis must appear before it.

WASHINGTON, May 17.—True to his word, John L. Lewis, president of the United Mine Workers Union, refused to appear before a war Labor Board hearing in Washington today while threats of a new, nationwide coal strike tomorrow night became hourly more serious.

Vice-Chairman George Taylor, of the WLB, called the board meeting into session shortly after 10 a.m., but there was no sign of Lewis nor any of his representatives. Both northern and southern coal operators showed up, however.

(International News Service)

NEW DELHI, May 17.—Allied fighters and bombers yesterday continued attacks on Japanese positions in Burma, British and American communiques said today.

Several formations of American bombers smashed railway installations in the Shwebo area, the U.S. army air force announced. Railroad yards at Moksogoyon and warehouses at Maygizauk, southwest of Shwebo, were blasted with a ten-ton barrage of high explosives, explosions and fires resulted.

Railroad Yards Hit
An even greater tonnage was dropped on the railroad yards at Zagon, northwest of Shwebo, the American communiques continued. Bombs destroyed rolling stock, tracks and warehouses and smoke from resulting fires was visible for 50 miles.

A third formation of bombers swept southward of Shwebo to hit rolling stock at Welet and Oatkawn. (Continued On Page Two)

London Sources
Declare Italian
Rumors 'Phoney'

Decline To Accept Reports
Being Circulated About Im-
minent Italian Collapse

By LOWELL BENNETT

(I. N. S. Staff Correspondent)

LONDON, May 17.—Informed Lon-

don sources today threw cold water on a flood of reports concerning disintegration in Nazi-occupied Europe and particularly as regards possibility of imminent Italian collapse.

Official quarters gave careful

study to rumors about Italy's political and military attitude and reached the conclusion that many of them at least represent "wishful thinking" springing from the allied victory in Tunisia. Some have emanated from what were termed "highly suspicious neutral quarters".

The following appears to be the soundest picture of the situation:

Italy is still an enemy, still on her feet and still capable of fighting for an undetermined period of time.

There is nothing whatever to suggest that Germany actually is abandoning Italy or withdrawing her troops, despite persistent reports along this line. There has never been any actual German army formations in Italy such as divisional garrison strength. The Nazi forces probably consist of some units that could not be taken to Tunisia, air force formations and individual groups of gestapo-type political inspectors.

Black Market Action Is Seen

Bill Awaiting Governor Martin's Approval Provides For Move

By JOHN PAGET
(N.Y. Staff Correspondent)

HARRISBURG, May 17.—Swift action against black market operators in Pennsylvania was foreshadowed today in a bill awaiting Gov. Edward Martin's approval.

Designed as a wartime companion to the war powers bill giving the chief executive limited authority to suspend laws, the proposal would give the State Defense Council power to adopt regulations to make rationing more effective and to eliminate black markets.

The 12-member agency headed by Governor Martin would be granted authority to promulgate regulations consistent with federal orders. Violators would be subject to a maximum \$50 fine and 20 days in jail. Senate Majority Leader Weiden B. Heyburn of Delaware claimed the measure would give the state the authority to meet "almost every conceivable situation."

Almost Killed

The bill, sponsored by House Majority Leader Franklin H. Lichtenwalter of Lehigh, was almost "killed" two hours before the legislature adjourned but prompt action by a coalition of Republicans and Democrats saved it.

The council also would be granted extensive power to direct the conservation of transportation facilities and strategic materials and nutrition and civilian recreation as well as promote housing conveniences in industrial centers, war bond sales, rationing and price control.

The council was already at work drafting the preliminary regulations to be adopted in the wartime interests of 10,000,000 Pennsylvanians. The governor named a sub-committee to devise an effective program shortly after Gov. Thomas E. Dewey of New York urged interstate cooperation in attacking price control violations and black markets.

Meanwhile, the governor faced a strenuous three-week interim during which he must consider 371 bills passed during the closing weeks of the 124-day legislative session which cost the taxpayers more than \$1,700,000. He has until June 7 to sign the measures.

AIRPORTS NEAR ROME BOMBED BY R. A. F. FLIERS

(Continued from Page One)

inflicting extensive damage on the vital port on the north coast of Sicily.

Several large fires were kindled, including one that devastated important installations in the dock area. All the British bombers returned safely, indicating that Axis air support for this vital Italian island is none too strong.

Saturday's attack was the second raid on Palermo within 36 hours and followed extensive air assaults Friday against a dozen Axis targets on Sicily and Sardinia and against the Italian base of Civitavecchia, only 37 miles northwest of Rome.

Pound Sicilian Coast

A Rome communiqué admitted heavy damage as a result of the Flying Fortress raid on Civitavecchia and said 474 casualties had been recorded, including 174 killed.

Rome also revealed that in addition to the Palermo attack, Allied airmen pounded the west Sicilian port of Trapani. Both the German and Italian high commands claimed Axis planes attacked the Allied port of Bone, Eastern Algeria, Saturday night hitting "several" ships in the harbor.

The Wellington's attack on Palermo added further damage to the extensive devastation inflicted on the port a week ago when 400 American planes staged the biggest U.S. raid of the war against the city, which has a normal population of 500,000.

BIG BOMB LOADS DROPPED IN BURMA

(Continued from Page One)

American Liberators assailed Prome on Friday, the U.S. statement continued, hitting a 200-foot river vessel, wharves, railroad yards and buildings. Fires were started.

Hit Jap Headquarters

Still another formation attacked the main Japanese headquarters at Myitkyina, dropping 14 tons of bombs.

A successful attack also was made on the Tavye Tin mines, the communiqué concluded. All American planes returned safely.

Royal Air Force bombers meantime lashed at enemy airfields, bridges, roads and encampments. The British announced no changes were reported on the Arakan front.

Uruguay has just established minimum sales prices for potatoeas.

WPB Penalizes Service Stations

(International News Service)

PHILADELPHIA, May 17.—Sharp curtailment of deliveries of motor fuel to 25 gasoline stations in 18 eastern Pennsylvania communities was ordered today by the War Production Board in a suspension order penalizing the Pennsylvania Independent Oil company, Allentown, for violations of limitation order L-70.

The suspension order charges that between March 19, 1942 and July 21, 1942, the company delivered to the 25 listed service stations, all owned and operated by the company, a total of 514,408 gallons of motor fuel in excess of amounts it was permitted to deliver under quota provisions of the limitation order.

The service stations affected include five in Allentown; two in Bethlehem; two in Easton; and one in Quakertown.

BATTLE ON ATTU SEALING FATE OF ENEMY ON KISKA

(Continued from Page One)

American and Japanese forces exchanged new aerial blows which might be the prelude to major action in that war theater.

Concerning the Solomons area, the Navy reported that Flying Fortress bombers attacked enemy positions in the northern Solomons, starting large fires.

The same night Avenger torpedo planes attacked Japanese shipping in the Buin area and scored two hits on a cargo vessel which exploded.

The Japanese retaliated by sending a small force of bombers against Guadalcanal but they caused little damage and one of the enemy planes was destroyed.

more home-like, and help considerably with the morale of the men stationed there. The men stationed there are only located at Camp Shenango but a short time, and cheerful, happy surroundings would be a big help.

A rapid fire campaign to secure funds to provide these curtains is now under way here. Anyone who would like to donate to the fund is asked to bring his check to the office of The News, or contributions can be left with Mrs. J. F. Rentz or at the home of Pvt. Black, 1016 Rose avenue. Checks can be made payable to Mrs. Rentz, or Pvt. Black.

Anyone who can give a little sewing time, and has a machine they can use for this purpose, is asked to contact Mrs. Rentz.

It is estimated that approximately \$700 will be needed to furnish the material. There are 40 recreation rooms, each having 16 windows, and each window will require around 4 yards of material.

So folks of New Castle, here's your opportunity to do just one more nice thing for the soldiers at Shenango Center. Let's make it a nice snappy job!

ITALIAN FLEET STILL IN HIDING

Pretty much overlooked in the completeness of the Axis route in Tunisia is the fact that the Italian Navy made no attempt to convert the debacle into at least a partial Dunkirk.

The Italians still have a sizeable fleet in being, including a number of battleships, despite the pounding it has received from the British at every opportunity. It might have been able, in conjunction with Luftwaffe units, to have assisted in the evacuation of a part of the Italian and German forces in Africa when control of a considerable portion of the Tunisian coastline remained in Axis hands, but it kept under cover.

Perhaps it will venture forth—or be blasted to bits at anchorage—when the Allies invade Italy. But if these timid ships don't get into action pretty soon, the OPA ought to arrest Mussolini for hoarding.

LIBERTY SHIPS

In view of skepticism which some have expressed about the quality of mass-produced vessels such as our Liberty ships, it is interesting to note that the first of these, the Patrick Henry, now has entered her third year with two long war-zone cruises behind her.

On her maiden voyage she traveled 30,000 miles and lost only three hours for repairs. On one voyage, carrying a useful load of more than 11,000 tons (the Liberties are rated 10,000 tons) she averaged 11.6 knots for almost 8,000 miles.

Probably not all Liberties are equally good. But here is a record:

KIND WORDS FROM BUENOS AIRES

So long as actions still speak louder than words, Argentina's Foreign Minister Enrique Ruiz Guimau should not be surprised to find his recent anti-totalitarian declarations given a lukewarm reception. He can protest his democratic beliefs until he is blue in the face, but the fact that Argentina clings obstinately, with his evident approval, to her pro-German neutrality will shut him down.

The foreign minister said some kind words for democracy in his address and took the occasion to deny charges that he is a Nazi. Afterward, he stated that he would be especially glad to hear that his remarks were favorably received in the United States.

If he is looking for American applause, he will have to do better than that. He will have to give up meaningless lip-service to the cause of democracy and exert his influence to take Argentina out of the Axis orbit and into her proper place on the Allied side.

CRUCIAL THREE MONTHS

A grim reminder that despite all the planning possible, the nation's food supply remains largely dependent upon the whims of nature is contained in the series of floods in midwestern states that ruined millions of acres of crops in addition to taking a toll of life and causing millions of dollars of property damage.

The next three months will be crucial in the nation's food production program. Most of the crops have been planted and farmers and gardeners are working long, back-breaking hours to smash all records for a year's production of food. But upon the vagaries of the weather in the next dozen weeks will depend the degree of success that attends their efforts.

Adequate rains, interspersed with periods of sunshine of just the right length, will bring the efforts of the food army to fruition. Floods this month, followed by little rain in June, July and August will have an adverse result at harvest time, especially with regard to vegetable and other food crops. The menace of uncontrollable insect infestation always hangs over farming operations like the sword of Damocles, but the quantity and spacing of moisture has a more widespread effect on success or failure of major crops than any other factor.

BURNING OF THE BOOKS

It was 10 years ago, on the night of May 10, that bonfires of books were lighted in Berlin and many other university cities of Germany. Young recruits of the Nazi cause fed the flames with thousands of volumes declared "un-Germanic," with the writings of alien authors, with all ideas, opinions and teachings found contrary to the faith and doctrine according to Adolf Hitler.

Now the burning of the books seems childish. But those who burned them were the enslaved children of a lunatic leader. A few years later they were his most fanatic followers, and among the most dangerous men in his cohorts of conquest. How many of them are alive today to remember the bonfires built 10 years ago in the market squares and college quadrangles of Germany?

Those who remember must have learned by now that ideas do not die easily in bonfires. Much greater fires—the fires of Warsaw, Rotterdam, London and little Lidice—have failed altogether to make "living room" in the world for the philosophies of those who tried to silence their accusers by burning their books.

By writing a book Adolf Hitler gave warning to the world of his grim purpose. By burning the books of others he confessed that his philosophy could not live in a free world. His own book need not be burned. Better that it endure as a monument in letters to the madness of all men, throughout the ages, who have tried and failed to make the world over in their own distorted image.—Philadelphia Evening Bulletin.

The Parent Problem

By Gary C. Myers, Ph. D.

PARENT OBLIGATIONS IN WARTIME

We parents have a big obligation in defense.

We need to keep our physically fit, eating proper foods, getting enough sleep, disciplining ourselves so as not to waste our energies over needless worries and activities, mastering our emotions. We need to have ourselves checked periodically by our doctor and dentist. We need to observe good safety rules. Injury, sickness, not to mention death, bring hardships on our children and eventually to the community and nation.

We parents need to keep our children as well as possible, selecting wholesome foods for them (which is rarely a matter of money), cultivating good appetites in them, holding the younger ones to strict routines of rest, sleep, elimination, winning the older ones to good health habits. To these ends, alert mothers who really care are entering the free courses put on by the Red Cross in their community, on nutrition, home nursing and the like. We want our children to be strong in body and spirit, ready to do hard things and face difficulties with fortitude.

Teach Children Unselfishness

We parents need to guide our children in wholesome restraints and regard for the rights of others as the very basis of character and citizenship, not letting them have all their wishes supplied nor making undue sacrifices for their selfish pleasures. We need to teach them self-denials.

We want our children to learn to get along well with other people's children, and for them and all the children of the community to have ample play places and good recreational opportunities. We need to welcome children who are not properly protected in our neighborhood to our homes and guide them in safe, wholesome fun.

For children whose mothers work, we need to set going machinery in our respective communities for adequate child centers.

We parents need to cultivate wholehearted enthusiasm in our family and among our neighbors for the big defense and war programs, refusing to repeat the ominous rumors originating with the enemies of our nation. For the character and citizenship of our children, and loyalty to our Democracy, we parents need to cooperate fully in all the rationing programs.

Happy Home Atmosphere

We parents need to provide a happy, companionable family atmosphere in our homes with abundant love, in which every member feels worthy and emotionally secure. We need lots of family fun. After all, the home and family are the fountain-head of morale on the front.

To all these ends, it seems to me that we parents, now as never before, need to turn our attention to things that bombs cannot destroy, to the imperishables, to things spiritual. We need to take ourselves to church and win our children to go with us. Most of all, we need to try to live our religion in our homes among our loved ones, which is about the hardest thing to do well.

Solving Parent Problems

"Q. In case there are no air raids for several months, won't children of the upper grades and high school tend to grow less cooperative in air raid drills?

A. No doubt they will. The school

should be very exacting in discipline during such drills; and the police and parents should, too.

The client looked at the check

puzzledly and shook his head a few times, and the lawyer inquired:

"What's the matter? Aren't you satisfied with the settlement of the case?"

HINTS AND DINTS

REFLECTIONS OF A SWING SHITTER

Of course, strikes are dangerous and decidedly harmful to the war effort. But are the strikers unpatriotic or un-American?

Most decidedly not. Many strikers have two or more sons or brothers in the Armed Services. They would not deliberately do anything that would harm them.

Then why do we have such a wide spread epidemic of strikers? The answer is that strikes are not all for selfish interest—they are for simple justice. Most strikes are in protest of unfair bureaucratic rulings... protests against rising costs of food and other living expenses... protests against threats of regimentation and political intimidation.

If whisky is rationed, will that traditional last drop be left in the discarded bottle?

A Pittsburgh woman got a divorce from her boxer husband because he practiced his profession on her. Wow!

It's a good thing to have confidence in the dealer you buy meat from these days. Some terrible stuff

When they insult one another and don't get mad enough to fight, it is called repartee.

Wallace says all South Americans are behind us. But must they stay so far behind?

To keep Germany from outsmarting us again, let's make it a crime for anybody to conspire with foreign interests to limit production or control business here.

How scornful! the critic can be when he feels sure his own faults are not known.

GERMAN DRIVES EXPECTED SOON

Moscow And Leningrad May Be Objectives Sought In Offensive Effort

(International News Service)

LONDON, May 17.—An imminent German offensive in Russia will be directed mainly against the cities of Moscow and Leningrad and against Soviet bases on the Donets front informed quarters in London predicted today.

Probably 200 divisions—roughly 3,000,000 men—will be thrown into the battles, these quarters said, but the quality of the troops is not expected to be as high as those used in previous Nazi offensives in Russia.

On the other hand, the Russians undoubtedly will have more air parity than they had last year, and Russian ground troops are far better equipped than those of American and British tanks having reached the Soviet Union.

There are no indications that the Russians are using any of the new Anglo-American tank shipments yet, these quarters said, and it is assumed they now must have large reserves of armor.

Germany, it is believed, has no option but to attack. She does not dare sit quiet in the east in view of the danger of a renewed Soviet offensive, it was pointed out.

CITY POLICE SQUAD

RAID DICE GAME

Carmen Cardella was the name and 220 East Cherry street, the address, given by the alleged proprietor of an alleged disorderly house who with six reported visitors were taken into custody by a squad of city police at 5:10 p.m. Sunday. It was claimed the men were shooting dice in the cellar of an empty store-room at Mill and Home streets. He placed a forfeit of \$100 and failed to appear. Each of the visitors posted \$10 cash bail, and likewise failed to appear today in police court, hence the raid netted the city \$600.

Lawrence County Union Of Sodalities Installation Held

Impressive Ceremony Program At St. John The Baptist Maronite Church

Impressive solemn installation services of the Lawrence County Union of Sodalities took place Sunday afternoon at 2 o'clock in the St. John the Baptist Maronite church before beautifully arranged altars of the Blessed Sacrament and of the Blessed Mother.

The Rev. Fr. Leo S. Watterson, director of the organization, was in charge of the installation, and the following officers were installed:

President, Frances E. Corio; vice-president, Charlotte Leonardo; corresponding secretary, Margaret Vallo; recording secretary, Helen Maher; treasurer, Renee Brancatine; Eucharistic chairman, Margaret Stinard; Our Lady's committee, Patricia Chip; Apostolic committee, Elizabeth Basheer; Catholic Truth, Lucy DiCarlo; social life, Kathryn Duff; and publicity, Rita L. Metz.

Father Watterson spoke to the officers, emphasizing their duties and obligations of their offices.

The retiring officers were commended for their fine work this past year. They in turn spoke and presented the symbol of their offices to their successors.

The Sodality flag, of white and blue background, with symbols of red triangle, crown and sword, was blessed by Father Watterson. The solemn benediction of the Blessed Sacrament followed with Rev. Fr. Albert M. Inteso of St. Vitus church as celebrant; Rev. Fr. Leo S. Watterson, director as deacon; Rev. Fr. Charles D. Galati of St. Lawrence church, Hillsville, as sub-deacon, and Rev. Elias G. Nader of St. John the Baptist church as master of ceremonies.

Mrs. Frances Colao accompanied on the organ, providing the appropriate music. The assembly closed the program with "Holy God We Praise Thy Name".

After the installation, the regular meeting was held in the church basement. Father Watterson opened with prayer. Plans were announced for the summer school of Catholic Action to be held at the William Penn hotel July 12-17.

Rev. Fr. Inteso spoke on the Sodality flag, and its emblem, and Rev. Fr. John M. Unger of St. Joseph's church closed with prayer.

The following spiritual directors attended: Rev. Fr. Leo S. Watterson, Rev. Fr. Charles D. Galati, Rev. Fr. Albert M. Inteso, Rev. Fr. Elias G. Nader, Rev. Fr. William M. Pisarek of St. Michael's church and Rev. Fr. John M. Unger of St. Joseph's church. Also attending were Sister Mary Edna, moderator of St. John the Baptist church, and Sister Mary Agatha of the New Castle hospital.

An informal social time was enjoyed afterwards by the group, following the meeting-program, with members of the Our Lady of Victory Sodality of St. John the Baptist Maronite church serving dainty refreshments.

The next meeting of the Lawrence County Union of Sodalities will be held in the New Castle hospital of nursing Sunday, July 11, at 2 p.m.

SALARY LOANS \$25-\$50-\$100 OR MORE

Borrow on your earning ability—No endorsers needed—Pay charges only for the time you have the money

SHOULD OF CASH? If you have a steady job, you should investigate Household's salary loan plan. This plan offers a quick, simple way for men and women who are working to borrow at reasonable cost. No endorsers are ever needed. You borrow on your earning ability and willingness to repay. We also make car and furniture loans. Even when making these loans we consider character and regular income more important than the borrower's security.

Choose your own plan

You may repay a loan in a few days or in a number of monthly installments—whatever best suits your needs. Charges are made only for the actual time you have the money. At our rate of 3% per month, a \$25 loan costs

\$1.52 when repaid in three monthly installments, but only \$18 when repaid at the end of a week. A \$50 loan repaid in four monthly installments of \$13.45 each costs \$3.80—if repaid in one month costs \$1.50.

Solve money problems here

Getting a loan at Household is a quick, private transaction—we require no endorsers or guarantors. The table below shows many sample monthly payment plans—we can fit our service to your needs. All payments include principal and interest.

You may get a Household loan to pay your doctor or dentist, insurance or taxes, old store bills, repairs, union fees—for almost any purpose. If you need money, phone, write or visit Household Finance.

Shenango Pottery Names Officers

James M. Smith Sr., chairman of the board of directors of the Shenango Pottery today announced the election of officers for the company, elected at a recent meeting of the board. The officers elected are: President, James M. Smith Jr.; vice-president, Charles W. Read; vice-president, Jonathan Higgins; vice-president, James K. Love; treasurer, Jonathan Higgins; Secretary, James K. Love.

For many years James M. Smith Sr. has been president of the company, but has relinquished that post to accept the chairmanship of the altar of the Blessed Sacrament and of the Blessed Mother.

The Rev. Fr. Leo S. Watterson, director of the organization, was in charge of the installation, and the following officers were installed:

President, Frances E. Corio; vice-president, Charlotte Leonardo; corresponding secretary, Margaret Vallo; recording secretary, Helen Maher; treasurer, Renee Brancatine; Eucharistic chairman, Margaret Stinard; Our Lady's committee, Patricia Chip; Apostolic committee, Elizabeth Basheer; Catholic Truth, Lucy DiCarlo; social life, Kathryn Duff; and publicity, Rita L. Metz.

Father Watterson spoke to the officers, emphasizing their duties and obligations of their offices.

The retiring officers were commended for their fine work this past year.

They in turn spoke and presented the symbol of their offices to their successors.

The Sodality flag, of white and blue background, with symbols of red triangle, crown and sword, was blessed by Father Watterson.

The solemn benediction of the Blessed Sacrament followed with Rev. Fr. Albert M. Inteso of St. Vitus church as celebrant; Rev. Fr. Leo S. Watterson, director as deacon; Rev. Fr. Charles D. Galati of St. Lawrence church, Hillsville, as sub-deacon, and Rev. Elias G. Nader of St. John the Baptist church as master of ceremonies.

Mrs. Frances Colao accompanied on the organ, providing the appropriate music. The assembly closed the program with "Holy God We Praise Thy Name".

After the installation, the regular meeting was held in the church basement. Father Watterson opened with prayer. Plans were announced for the summer school of Catholic Action to be held at the William Penn hotel July 12-17.

PERSONAL MENTION

Leigh Robinson, former resident of Washington, D. C., was in the city over the weekend.

Dr. S. Skol of Garfield avenue, has returned home from New York where he attended a post graduate clinic.

Mrs. Ruth Chapman of the Youngstown road has returned from a week's vacation in St. Petersburg, Fla.

Mr. and Mrs. E. J. Baker and four children, of Mineral Ridge, O., were guests Sunday at the home of Mrs. John Sweet, on Grant street.

Mrs. Mary Logue, of South Walnut street, has returned from Connellsville, where she visited with Mrs. Richard H. Miller and family.

Mrs. Jennie Dodds, R. D. 1, New Castle, has recovered from injuries received in a fall at her home and expects to leave the Jameson Memorial hospital soon.

Mrs. Gay Brindage of San Francisco, Calif., has returned home after visiting here for two months with her brother-in-law and sister, Mr. and Mrs. C. H. Cole, Long avenue.

Mr. and Mrs. George Edwards, of West Washington Street, have returned home from a week's vacation during which they visited their mother, Mrs. Mary Lupold, of Sinnamahoning, and their daughter, Mrs. H. M. Smith, of Bedford.

The department of labor and industry has completed a survey of industrial accidents during February which disclosed that 123 fatalities had occurred in the 11,113 injuries reported. Iron and steel mills, operating top-speed during wartime, reported 18 per cent of the total while anthracite operators experienced 10 per cent. Overloading, crowding and poor arranging caused over half of the accidents in February, the department stated. It was added that 3017 injuries were the result of workers being struck by objects, 2319 by their being caught between machinery and 1384 because of falls.

NEWS AND VIEWS AT CAPITAL

HARRISBURG, May 17.—Violet Oakley of Mt. Airy, has returned to the State Capitol to repair a mural panel in the governor's reception room and to inspect the rest of her paintings that are scattered throughout the main Capitol building. The department of property and supplies has arranged to have all of her paintings cleaned to restore them to their original beauty. Officials indicated that Miss Oakley whose art adorns the more important rooms in the Capitol, would not remove the Japanese flag which is included in a mural in the senate chamber depicting the opening of Japan to foreign trade 110 years ago.

Legislators sponsored 140 bills designed to clarify Pennsylvania's war effort during the 124-day session but only a score received consideration and less than half was enacted. Most important was the "war powers" bill, giving the governor authority to suspend laws hampering the war effort, and a measure extending the power of the State Defense Council to battle "black markets". Out of 1747 bills introduced, 699 were sent to the governor. During the 196-day session in 1941 the General Assembly approved 497 of the 2460 bills introduced but former Gov. Arthur H. James signed only 428.

Pennsylvania's state books still contain hundreds of obsolete laws that can be invoked although they have been gathering dust for more than 200 years. A law of 1725 makes it illegal to arrest a person in a civil case if he is a freeholder with 50 acres of well seated land, 12 acres of improved land and a dwelling worth 50 pounds. Another law passed in 1835 provides that infants found to be "vagrants, incorrigible or vicious" can be placed under the guardianship of the managers of "houses of refuge". If the sheriffs of Carbon, Clearfield, Juniata, Indiana, Luzerne, Mifflin or Montgomery counties operate taprooms they are guilty of breaking a law of 1742 which prohibits the issuance of licenses to them. Another law of 1834 requires tavern-keepers to "provide good entertainment for a man and a horse" under penalty of a \$5 fine.

The department of labor and industry has completed a survey of industrial accidents during February which disclosed that 123 fatalities had occurred in the 11,113 injuries reported. Iron and steel mills, operating top-speed during wartime, reported 18 per cent of the total while anthracite operators experienced 10 per cent. It was added that 3017 injuries were the result of workers being struck by objects, 2319 by their being caught between machinery and 1384 because of falls.

Despite the end of the 1943 session of the general assembly, the contracting printer still is behind in the schedule for delivering legislative material. Last week, the April 12 issue of the legislative journal was released and bills passed during the closing days were distributed all week. Biggest reason of course is the lack of manpower in the printing plant to meet the urgent demands of the legislature in addition to other contracts. In one instance Sen. Harry Shapley (D) Philadelphia told his colleagues that a certain bill was not on file indicating it had not been returned by the printer, and pointed out that it was illegal to consider a bill not filed. Despite his objection, the measure was voted upon.

AIR POWER WILL DOMINATE WAR

Brig. Gen. Peabody Says Air Power Dominating Influence In Victory

By JOSEPH A. BORS
(U. S. Staff Correspondent)

ORLANDO, Fla., May 17.—Brig. Gen. Hume Peabody, commander of the Army Air Forces School of Applied Tactics, said that air power would be the dominating influence in the ultimate United Nations victory over the Axis.

"Air power will be the dominating influence in victory provided you have enough of it," Peabody told reporters who have been visiting the new air school.

He repeated pained questions concerning arguments for and against a separate air force but finally broke down and offered the following as his "personal view."

"My personal view is that when circumstances permit that will be the ultimate solution."

He added, however, that wartime was no time "to make a change to a separate air force" and added that coordination of all branches of the services was important to operations.

Peabody expressed hope that after the war is over the United States never again would be caught as unprepared as it was prior to the attack on Pearl Harbor.

"We were caught with our pants down when the war started," Peabody said.

He asserted that after the war, America should continue to maintain powerful enough forces to hold aggressor nations in check and should continue to train a certain number of officers for combat duty.

VICTORY GARDEN NOTES
(By LEWIS C. DAYTON)
(County Farm Agent)

APHID OR PLANT LICE
Aphids are small, soft-bodied sucking insects which range in color from yellowish-green through green to black. Winged and wingless forms occur on the plants at the same time. Generally they spend the winter as eggs on plants in the field. Some species continue their development throughout the winter in greenhouses or in similar places, although eggs of these forms may be found outdoors during the winter. Damage to plants is caused by the withdrawal of plant juices during the feeding operations. The noticeable result may be a deformation of the part attacked or of the entire plant. When the insects occur in large numbers the plants may be destroyed. Leaves that are attacked curl or become discolored and drop. Aphids may seriously damage beans, cabbage, eggplant, potato, tomato, and many other vegetables as well as other plants. Under most conditions control measures should be started immediately, since some kinds of aphids breed so rapidly that plants may be destroyed within a few days after being attacked.

Serious damage may be avoided by dipping the crowns and leaves of the plants in a nicotine soap solution before setting cabbage plants. Nicotine dust containing 3 or 4 percent nicotine is very effective. Nicotine dust may be purchased already prepared or it may be made at home. Homemade dusting mixtures may be made by placing 5 pounds of hydrated lime in a large friction-top can and adding to this 8 ounces of nicotine sulphate. Place about 2 pounds of small, round stones in the can. Then place the top on the can. Roll the can with the materials in it for about five minutes. Then sift the materials to remove the stones. Place the dust in a tight container until needed for use.

A spray may be made of 3 teaspoons of nicotine sulphate, 2 tablespoons soap flakes or soap chips, and 1 gallon of water.

Both spray and dust mixtures must be applied thoroughly so as to cover the undersides and upper surfaces of the leaves and the stems of the plants. This may be accomplished by using a curved deflector on the delivery pipe of a duster or nozzles set at an angle on the sprayer hose or delivery pipe.

Maple Sugar Crop Is Good This Year
(International News Service)
MONTPELIER, Vt.—Vermont maple sugar farmers are smacking the sweet taste of a lucrative season. With a bountiful flow of sap assured, the Green Mountain farmer also has received the good tidings that he can sell his maple sugar without restriction of price ceilings. Congratulations for this triumph of the sap over bureaucracy are pouring in on State OPA Director Charles Smith.

"So complicated were the price controls, it was impossible for the little fellow," says Smith.

"We'd have had to recognize a range of 30 cents to 75 cents per pound for the same product and it would have played into the hands of the big manufacturers and squeezed the little farmer."

Vermont contributes about one-half of the total U. S. maple sugar output.

HOTEL GUESTS MUST MAKE OWN BEDS
International News Service
CHICAGO, May 17.—Some 32,000 permanent guests in Chicago hotels were resigned today to the necessity of making their own beds and tidying up their rooms on Sundays for the remainder of the war. They had their first experience yesterday. There were a few complaints hotel managers said, and the results obtained in making beds in some of the bachelor apartments hardly would get an A-1 rating from the head maid, but otherwise the experiment was successful.

The reason for the innovation was the shortage of maids. Although the United States manufacturers moore silk than any other country, it has not grown any. The first silk mill was set up in Connecticut in 1810.

State May Lead In Synthetics

Pennsylvania May Be Center
For Synthetic Industry
After War

COAL IS VITAL BASE OF INDUSTRY

(International News Service)
HARRISBURG, May 17.—Pennsylvania after the war may become a center of the rapidly-expanding synthetic industry. In the opinion of Deputy Secretary of Commerce Raymond H. Smith,

"Coal, particularly bituminous now is used widely as the source of raw materials for industrial synthetics." Smith pointed out, "and Pennsylvania produces about one-third of all coal mined in the country. This is more than produced by any of the 30 some coal mining states in the nation."

Materials In State

"In addition to serving as the prime storehouse for the raw materials from which synthetics are made, Pennsylvania, long the leading industrial state, has the manufacturers, the workers, the skill and the equipment to take the lead in producing thousands of synthetic items, indispensable in war and valuable in peace."

Bituminous production figures for 1942 show that Pennsylvania produces almost one-fourth of all bituminous mined in the nation, he added. Pennsylvania's production last year amounted to 140,271,000 tons as compared to some 580,000,000 tons mined throughout the country.

Many Products

Among the products made from coal derivatives are explosives, plastics, food preservatives, solvents, soaps, fertilizers, insecticides, lacquers, drugs, etc. Two of the most publicized synthetics using coal derivatives are a fiber that takes the place of silk and a material that substitutes for rubber.

Anthracite coal, of which 99 percent is produced in Pennsylvania, already has been used as a source for various synthetics.

Pennsylvania Federation Of Women's Club Plans Streamlined 2-Day Conference

Forty-eighth annual convention of the Pennsylvania Federation of Women's clubs will be a wartime conference in the Penn-Harris hotel ballroom, Harrisburg, May 18 and 19.

Five principal speakers, two business sessions, a presidents' conference with 12 department chairmen, a junior conference, and words from the women's branches of the armed forces, all have place on the program planned by Mrs. Frank Wills, of Philadelphia.

Tuesday evening's speakers will include H. W. Prentis, Jr., president of the Armstrong Cork company; Mrs. Hiram Cole Houghton, Jr., education chairman of the General Federation of Women's clubs, and Dr. Teihy Hsieh, of the Chinese diplomatic service.

On Wednesday afternoon Dr. William Mather Lewis, president of Lafayette college, will speak on "Plans for Peace," and Dr. Helen Dwight Reid, of the Bryn Mawr college faculty, will speak on "The Western Hemisphere in the World of Tomorrow."

RESTRICTIONS ON DRIVING TO STAY

Tire And Gasoline Rationing Is Seen Through 1944 By Rubber Director

By PHILLIPS J. PECK
(I. N. S. Staff Correspondent)

WASHINGTON, May 17.—Rubber Director William M. Jeffers third report on the progress of the nation's huge synthetic rubber program today foreshadowed continuation of present driving limitations, including gasoline rationing throughout 1944.

Although the program is "in the best shape that it has ever been," Jeffers said that the rubber problem is not yet solved and extensive conservation of tires must still be continued. He said that rubber cannot become a generally available commodity for "a long time."

Discussing the passenger car tire situation, Jeffers said that provisions are being made for the production of 5,000,000 new synthetic tires this year which, together with 7,000,000 prewar tires on hand, will be issued to "essential drivers."

In 1944, plans call for manufacture of 30,000,000 synthetic tires. This Jeffers said, is "the probable minimum replacement program that

the country can get by with, even by general recapping, by maintenance of present driving speeds, and by keeping present conservation measures."

The non-essential driver cannot expect new tires for a long time... And every owner of a car must realize that conservation of tires must be strictly maintained," he asserted. "Driving speeds must be held down, non-essential driving reduced and careless driving eliminated."

It is said that the average city dwellers are healthier than those who live in the rural districts.

Many Service Men Visitors

Gradually New Castle is getting to be a popular place for service men from the camp at Transfer and the Army and Navy schools at Westminster, Grove City and Slippery Rock colleges. Saturday night there was an estimated 300 men in the city.

At the United Service Organization center on the public square, some 125 service men visited. Young women of the city served as hostesses for informal dancing and bridge parties. Many of the men preferred to write letters or read.

On Sunday afternoon no religious service was held. Instead a quiz program was put on with the service men taking part. The churches of the city had many of the men at the morning services and many local residents had guests at dinner in their homes.

Discussing the passenger car tire situation, Jeffers said that provisions are being made for the production of 5,000,000 new synthetic tires this year which, together with 7,000,000 prewar tires on hand, will be issued to "essential drivers."

In 1944, plans call for manufacture of 30,000,000 synthetic tires. This Jeffers said, is "the probable minimum replacement program that

the country can get by with, even by general recapping, by maintenance of present driving speeds, and by keeping present conservation measures."

The non-essential driver cannot expect new tires for a long time... And every owner of a car must realize that conservation of tires must be strictly maintained," he asserted. "Driving speeds must be held down, non-essential driving reduced and careless driving eliminated."

It is said that the average city dwellers are healthier than those who live in the rural districts.

Did "Diamond Jim" Have Stomach or Ulcer Pains?

It is hardly likely that Diamond Jim Brady could have eaten so voraciously if he suffered from stomach or ulcer pains. Indigestion, gas pains, heartburn, burning sensation, bloat and other conditions caused by excess acid should try Dene's. Get a 25 cent sample from your druggist. First dose must convince or return to us and get DOUBLE YOUR MONEY BACK. At Eckerd's and drug stores everywhere.

By JOHN CASHMAN
International News Service Sports Writer

NEW YORK, May 17.—Major League turnstiles, which clicked upon 147,157 cash customers yesterday in ballparks throughout the country, today gave testimony that the national pastime retains its magnetic qualities despite exigencies of the war.

While untold thousands of youthful fans are serving in the armed forces and other game-goers are kept from the stadium by gasoline and tire shortages, war work and patriotic concentration upon victory gardening, the weekend contests were amply attended and the fans went away satisfied that in many cases they had seen something for their money.

Phillies Split

At Philadelphia, 30,823 persons crowded into Shibe Park for the second largest attendance in Quaker City history. They witnessed two fine pitching duels in which Howard Kist and Al Gerhauser garnered wins.

Kist was credited with a 4-3 victory after he and Lynn (Schoolboy) Rowe battled overtime, with the Cards cashing in on a squeeze bunt by Whitey Kurowski in the eleventh frame. Gerhauser earned his first win 2 to 1 for the Phillies when Jim Wasdell tripped and came in on Babe Dahlgren's deep fly in the fourth inning of the nightcap.

Bobo Newson, veteran Dodgers hurler, proved the hero of Brooklyn's twin-bill with the Chicago Cubs. After relieving arm-tired Kirby Higbe in the sixth, Newson survived a Chicago threat and belted a single driving in Herman to win 3 to 2.

Ed Head was credited with the Dodger's 4-0 shutout in the opening event. He allowed one five hits.

Buccos Divide

Meanwhile, the New York Giants were splitting their doubleheader with the Pirates. After Giant Manager Mel Ott's circuit clinched the opener, 3 to 1, the Pittsburgh aggregation snatched the New Yorkers' winning streak at four games Ott's home, scoring Maynard, followed a four-bagger by Juras. The Pirates' 2-1 victory was marked up to Bob Klinger's five-hit hurling.

At Boston, the Braves moved into a tie for second place honors in the National League, sweeping both

ends of their doubleheader with the Cincinnati Reds. Red Barrett won his own game in the opener, 3-1, by blasting across a double in the third inning to score three runs. The 6-1 nightcap was marked by Phil Mast's homer with bases loaded in the third frame.

In the American League, the Yankees split with the St. Louis Browns. After taking the initial game of their twin-bill easily, 7 to 3, the New Yorkers bowed to their hosts 5-3 in a 10-inning contest.

The nightcap went to the Browns after Bill Johnson dropped an easy pop-fly to allow the tying run and forced the game into overtime. The winning marker came as Mark Christian, running for Vernon Stephens, scored on Don Gutteridge's single.

Nats Win Twice

The Cleveland Indians opened their opener, 5 to 3, then salvaged the after-piece, 3 to 2, from the Philadelphia Athletics. The Washington Senators annexed both ends of their double-header, turning back the Detroit Tigers 7-1 and 10-6. A four-run surge in the fourth inning of the initial contest gave the White Sox a 4-2 win over the Boston Red Sox, but the Chicagoans dropped the nightcap by the same score.

PHILADELPHIA

Another champion, Jackie Calura, swings into action on Friday night in the nation's capital. The Canadian is carded to swap blows with Lew Henbury of Washington in a 10-round non-title skirmish.

COLLEGE

Because of his showing since hitting the big trail, Jack has been installed as a favorite. There is, however, a surprisingly large Montgomery following which threatens to back up the Pennsylvanian. Jack is the New York State Athletic commission lightweight king.

CALURA TO FIGHT

Portland, Ore., May 17.—The war-time dearth of players already has sent big-time college football coaches of the Pacific northwest to the wailing wall.

UNIVERSITY OF WASHINGTON

The University of Washington will lose nine of its 25 leading gridironers by graduation, and the other 16 probably will fall prey to the draft or reserve summonses before the seasons opens.

AT THE UNIVERSITY OF OREGON

Coach "Honest John" Warren is discouraged about the prospects for his Ducks.

ABOUT THE ONLY LEADING PLAYER

Reasonably sure to return is Bob Reynolds, flash Negro back, who is enrolled in an enlisted reserve pre-medical course.

NO REGULARS

Coach "Babe" Hollingsby at Washington State forecast that "practically no regular football men will answer the call at W. S. C. in September." Hollingsby makes no bones about his belief that "football will not be carried on with a full schedule as heretofore."

SIMILAR DIFFICULTIES

Similar difficulties face the University of Idaho Vandals, who have not been strong contenders in the coast conference for several years.

Less gloomy is Coach Lon Stiner of Oregon State, who is going ahead with his plans until unless football is canceled entirely.

He expects several hundred men students to be left on the campus next fall, besides army men, and believes he can whip up some kind of a team from the available material.

SEE SPLIT LEAGUE

The best some of the coaches can envisage is a split league with the five Pacific northwest teams playing a schedule of their own while the California schools go their way. Nothing definite will be decided until the conference meeting in June.

**CAPTURED AXIS
GENERALS TO GET
\$40 PER MONTH**

(International News Service) WASHINGTON, May 17.—Top Axis generals captured by American forces in North Africa will receive a monthly stipend which is less than the pay of a U. S. private.

A check of army records today disclosed that Axis generals who capitulated to American commanders will receive \$40 a month. U. S. army recruits are paid \$50.

Fourteen German and three Italian general were among the estimated 175,000 Axis military prisoners rounded up in the Tunisian desert.

Under the Geneva agreement of 1929 concerning the treatment of war prisoners, no enemy officer—from lieutenant to general—may be forced to work. Non-commissioned officers may be required to perform "supervisory work" while the ranks may be ordered to do manual labor for which they receive 80 cents a day.

The fate of American officers falling into Axis hands is not definitely known. Army officials expressed the hope that Axis nations will pay "similar" monthly wages. In contrast to enemy ranks, who receive 10 cents per day, captured American soldiers are given no compensation.

**Confirmation At
Trinity Church**

Rt. Rev. John C. Ward, bishop of the Episcopal Diocese of Erie for the past 20 years, conducted his last confirmation service in this city at Trinity Episcopal church on Sunday. Bishop Ward will retire on June 1.

Rev. Robert M. C. Griswold, rector of Trinity church, reports that there were 20 in the confirmation class.

A feature of the service was a baton solo by Pvt. Frank Wilson of St. Timothy's church, Philadelphia, who is now stationed at Shenango Personnel Replacement Depot. Transfer Pvt. Wilson sang "Arm, Arm, Ye Brave" from Handel's oratorio, "Judas Maccabaeus."

**CAN COLLECTION
WINNERS NAMED**

**Seventy-Five Thousand Cans
Collected By Pupils In
Schools In Week**

Announcing the winners of the can championships each week has gotten to the place where it is a matter of repetition. Once again St. Michaels in the schools under 300 enrollment, Thaddeus Stevens in the city schools over 300, and New Wilmington in the county schools, won the pennant for the past week.

St. Michaels, with a 100 per cent record and an average of 53, turned in 4,837 cans. Thaddeus Stevens with a 100 per cent record and an average of 15, turned in 4,734 cans, and New Wilmington came through with 11,247 and an average of 73. Other schools turning in 100 per cent records but with smaller per capita averages were West Side, Union, Chewton, Clemmons and Wampum. A total of 76,177 cans were turned in for all schools.

Individual Winners

For St. Michaels, Miss Dorothy Knis, age 13, grade 7, turned in 1,350 cans to be high. For Thaddeus Stevens, Ruth Thompson, age 10, of grade 5-L, turned in 149 cans. For New Wilmington, Alice Ann Ringer, age 10, grade 5, was high with 2,808 cans. These three young ladies will be interviewed Tuesday night, May 18, over station WKST.

MOLASSES

Seems as though Americans prefer appearance to quality. We grind and bleach until we get something which looks good to us.

Sometimes we take away some very valuable things.

We make white flour but lose valuable vitamins.

We do the same thing with rice. Sugar cane contains many chemicals which our bodies need. White sugar has lost all of them.

Molasses has a lot of chemicals, especially iron.

We would do well to use lots of molasses instead of sugar. Rolled oats, molasses, and milk is a good combination. It provides calories, chemicals and vitamins in abundance.

Ginger bread uses molasses to good advantage.

Substitute molasses for sugar whenever you can. You will have pep and shiny eyes.

**Swine Management
Will Be Discussed**

Announcement was made today by County Agent L. C. Dayton, of the Lawrence County Agricultural Extension association, that a swine management meeting will be held on Wednesday evening, May 18, at eight o'clock, in the Y. M. C. A.

Problems pertaining to the raising of pork for market, a pertinent matter at this time, will be discussed by L. C. Madison, swine specialist of Penn State college. Anyone interested in the raising of swine is welcome to attend this meeting.

Every day save a tablespoon of waste kitchen fat. It's urgently needed to make gunpowder.

OPEN TONIGHT UNTIL 9 P. M.
